Automotive Window Film

Sun protection for
you and your loved ones
whilst driving.

UV rays: Invisible but dangerous.

Measuring 1.7m², our skin is our largest organ:

Science has shown that our bodies need the sun. It is the best way to naturally produce the Vitamin D our bodies need. By exposing our bare skin to sunlight; our vitamin D requirements are quickly absorbed.

But the sun's rays are also a dangerous threat to our largest organ. Shortwave ultraviolet B (UVB) rays can cause visible skin burn, but longer wavelength ultraviolet A (UVA) rays cumulatively penetrate our skin and can mean severe risks: the possibility of skin cancer, premature ageing, or increased risk of other skin diseases.

Windscreens are typically manufactured in a way that includes UV Protection. Automotive side windows are generally made of another glass type.

While UVB rays do not penetrate the glass of automotive side windows, most people are unaware that the sun's harmful UVA rays actually do penetrate the glass, and do cause cumulative damage.

Skin cancer is the most common form of cancer in the UK and rates continue to rise. At least 100,000 new cases are

Over
99%
UV Protection

Reliable UV protection

- 👤 **Protect your loved ones.** LLumar clear window film will help protect the skin and vulnerable facial areas of people and pets while travelling.
- ⚙️ **Enjoy your time on the road.** LLumar's new UV clear window film blocks over 99% of the sun's harmful rays that can cause premature ageing and skin cancer.
- ✔️ **Colours remain colorful.** Upholstery and interior trim are less susceptible to fading, ageing and material fatigue caused by UV rays.

Effective sun protection

- ☀️ **Sun protection included.** When applied over automotive glass, this film's virtually invisible protection blocks over 99 percent of harmful UV rays. LLumar window film helps screen the sun. So one place where you can take action against the sun's rays, is in your car.
- ❄️ **Keep your ride cool.** LLumar window film, whilst looking stylish, can also reduce cabin temperature - making you feel more comfortable while driving.

Clear benefits

- 👁️ LLumar window film is not only a valuable addition to your new car. You can easily have your car **cost efficiently retrofitted** with LLumar window film here.
- 👁️ **Get the benefits of a dark window tint with UV Clear window film.** While all automotive films in the LLumar portfolio offer UV protection, clear film appeals to those who do not want the darker window appearance or where the use of dark film is prohibited by law (forward of the B-post).

Improve privacy glass.

- 🌐 UVA, the longer rays responsible for skin's ageing, can penetrate through glass – even privacy glass!
- 👁️ LLumar window film can also be **applied over privacy glass** and will provide invisible protection to passengers from UVA rays, which are known to cause long-term skin damage.
